Theme and Style Guide to TikZposter

Elena Botoeva, Richard Barnard, Pascal Richter and Dirk Surmann

October 29, 2014
Making posters in LaTeX is easy! To see this document, compile the following code:

\documentclass{tikzposter}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Customization of TikZposter

TikZposter is highly customizable! There are a number of options that can be specified on different levels and define the layout and the appearance of your poster.

Here we will only discuss customization from the stylistic point of view. The goal of this document is to introduce you to the available themes and styles that are listed below.

Themes: Default, Rays, Basic, Simple, Envelope, Wave, Board, Autumn, Desert.
Color palettes: Default, BlueGrayOrange, GreenGrayViolet, PurpleGrayBlue, BrownBlueOrange.
Color styles: Default, Australia, Britain, Sweden, Spain, Russia, Denmark, Germany.
Backgrounds: Default, VerticalGradation, Rays, BottomVerticalGradation, Empty.
Titles: Default, Basic, Empty, Filled, Envelope, Wave, VerticalShading.
Blocks: Default, Basic, Minimal, Envelope, Corner, Slide, TornOut.
Inner blocks: Default and Table, along with copies of the styles for blocks.
Notes: Default, VerticalShading, Corner, Sticky.
**Theme** is a complete collection of all possible options for you poster.

By \texttt{\usetheme} command, you can change the theme of the poster.

\begin{verbatim}
\documentclass{tikzposter}
\usetheme{Basic}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}
Default Theme

Using Default theme
All options are defined by the theme

Block with title
Content

Block without title
Note

If you like this setting, use the following code:
\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Rays theme
All options are defined by the theme

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Rays}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Basic Theme

Using Basic theme
All options are defined by the theme

Block with title

Block without title

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Basic}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Simple Theme

Using Simple theme
All options are defined by the theme

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Simple}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Envelope Theme

Using Envelope theme
All options are defined by the theme

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Envelope}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Wave theme
All options are defined by the theme

Block with title
Content

Block without title

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Wave}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Board Theme

Using Board theme
All options are defined by the theme

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Board}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Autumn Theme

Using Autumn theme
All options are defined by the theme

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Autumn}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Desert theme
All options are defined by the theme

Block with title
Content

Block without title

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetheme{Desert}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Customization of TikZposter: Color styles and palettes

*Color palettes* define the main colors used by the elements of poster, while *Color styles* specify the exact colors used in depicting the elements of poster, e.g., the color of the text in block titles, the frame color of the title, etc.

By `\usecolorstyle` command, you can change the coloring scheme or the main colors, so called color palette, of the poster.

```
\documentclass{tikzposter}
\usecolorstyle[colorPalette=GreenGrayViolet]
  {Australia}

\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
All Color Styles

Default
- Using Default color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Default}
  ```

Australia
- Using Australia color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Australia}
  ```

Britain
- Using Britain color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Britain}
  ```

Sweden
- Using Sweden color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Sweden}
  ```

Spain
- Using Spain color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Spain}
  ```

Russia
- Using Russia color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Russia}
  ```

Denmark
- Using Denmark color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Denmark}
  ```

Germany
- Using Germany color style with the rest being Default
- Block with title
- If you like this setting, use the following code:
  ```latex
  \usecolorstyle{Germany}
  ```
Using Default color style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Australia Color Style

Using Australia color style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usecolorstyle{Australia}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Britain color style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:
\documentclass{tikzposter}
\usecolorstyle{Britain}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Sweden color style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle{Sweden}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Spain Color Style

Using Spain color style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle{Spain}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using Russia color style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usecolorstyle{Russia}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Denmark color style
with the rest being Default

Block with title
Content

Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle{Denmark}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using Germany color style
with the rest being Default

Block with title
Content

Block without title

If you like this setting, use the following code:

\documentclass{tikzposter}
\usecolorstyle{Germany}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
All Color Palettes

Default

BlueGrayOrange

GreenGrayViolet

PurpleGrayBlue

BrownBlueOrange

If you like this setting, use the following code:

Using Default color palette
with the Default color style

Using BlueGrayOrange color palette
with the Default color style

Using GreenGrayViolet color palette
with the Default color style

Using PurpleGrayBlue color palette
with the Default color style

Using BrownBlueOrange color palette
with the Default color style
Using Default color palette
with the Default color style

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
BlueGrayOrange Color Palette

Using BlueGrayOrange color palette
with the Default color style

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle[colorPalette=BlueGrayOrange]{Default}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
GreenGrayViolet Color Palette

Using GreenGrayViolet color palette
with the Default color style

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle[colorPalette=GreenGrayViolet]{Default}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```

Note
Using PurpleGrayBlue color palette
with the Default color style

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usecolorstyle{colorPalette=PurpleGrayBlue}{Default}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
BrownBlueOrange Color Palette

Using BrownBlueOrange color palette
with the Default color style

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usecolorstyle{colorPalette=BrownBlueOrange}{Default}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
By \texttt{usebackgroundstyle} command, you can change the background of the poster.

\begin{verbatim}
\documentclass{tikzposter}
\usebackgroundstyle{Rays}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}
### All Background Styles

**Default**

- Using Default background style with the rest being Default

**VerticalGradation**

- Using VerticalGradation background style with the rest being Default

**Rays**

- Using Rays background style with the rest being Default

**BottomVerticalGradation**

- Using BottomVerticalGradation background style with the rest being Default

**Empty**

- Using Empty background style with the rest being Default

If you like this setting, use the following code:

```latex
tikzposter
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```

---

**Note**

If you like this setting, use the following code:

```latex
tikzposter
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Default Background

Using Default background style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
VerticalGradation Background

Using VerticalGradation background style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usebackgroundstyle{VerticalGradation}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Rays background style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usebackgroundstyle{Rays}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using \texttt{BottomVerticalGradation} background style with the rest being Default

**Block with title**

Content

**Block without title**

Content

If you like this setting, use the following code:

```
\documentclass[tikzposter]
\usebackgroundstyle{BottomVerticalGradation}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using Empty background style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usebackgroundstyle{Empty}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Customization of TikZposter: Title node

By \texttt{\textbackslash usetitlestyle} command, you can change the way the title is depicted.

\begin{verbatim}
\documentclass{tikzposter}
\usetitlestyle{Wave}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}

By \texttt{\textbackslash usetitlestyle} command, you can change the way the title is depicted.

\begin{verbatim}
\documentclass{tikzposter}
\usetitlestyle{Wave}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}
**All Title Styles**

- **Default**
  - Using Default title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **Basic**
  - Using Basic title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **Empty**
  - Using Empty title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **Filled**
  - Using Filled title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **Envelope**
  - Using Envelope title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **Wave**
  - Using Wave title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:

- **VerticalShading**
  - Using VerticalShading title style with the rest being Default
  - Block with title
  - If you like this setting, use the following code:
Using Default title style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Basic Title

Using Basic title style
with the rest being Default

Block with title

Content

Block without title

Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetitlestyle{Basic}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Empty title style
with the rest being Default

Block with title

Content

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetitlestyle{Empty}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Filled title style
with the rest being Default

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetitlestyle{Filled}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}

Note
Using Envelope title style

with the rest being Default

If you like this setting, use the following code:

\documentclass{tikzposter}
\usetitlestyle{Envelope}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Using Wave title style
with the rest being Default

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usetitlestyle{Wave}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using **VerticalShading title style**  
with the rest being Default

**Block with title**

<table>
<thead>
<tr>
<th>Content</th>
</tr>
</thead>
</table>

**Block without title**

<table>
<thead>
<tr>
<th>Note</th>
</tr>
</thead>
</table>

**If you like this setting, use the following code:**

```latex
\documentclass{tikzposter}
\usetitlestyle{VerticalShading}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Customization of TikZposter: Block nodes

By `\useblockstyle{Slide}` command, you can change the style of the blocks.

```
\documentclass{tikzposter}
\useblockstyle{Slide}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
All Block Styles

Default

Using Default block style
with the rest being Default

Envelope

Using Envelope block style
with the rest being Default

Corner

Using Corner block style
with the rest being Default

TornOut

Using TornOut block style
with the rest being Default

Basic

Using Basic block style
with the rest being Default

Minimal

Using Minimal block style
with the rest being Default

Slide

Using Slide block style
with the rest being Default

If you like this setting, use the following code:

\documentclass{tikzposter}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}

Note

LATEX TikZposter
Using Envelope block style

\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Corner Block

Using Corner block style
with the rest being Default

\documentclass{tikzposter}
\useblockstyle{Corner}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}

Note
Using Slide block style
with the rest being Default

### Block with title

Content

### Block without title

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\useblockstyle{Slide}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
TornOut Block

Using TornOut block style
with the rest being Default

Content

Block without title

Note

\documentclass{tikzposter}
\useblockstyle{TornOut}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Customization of TikZposter: Notes

By \texttt{\usenotestyle} command, you can change the style of the notes.

\begin{verbatim}
\documentclass{tikzposter}
\usenotestyle{Sticky}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}

If you like this setting, use the following code:

\begin{verbatim}
\documentclass{tikzposter}
\usenotestyle{Sticky}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
\end{verbatim}
All Note Styles

Default

- Using Default note style
- with the rest being Default

- Block with title
- Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```

VerticalShading

- Using VerticalShading note style
- with the rest being Default

- Block with title
- Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usenotestyle{VerticalShading}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```

Corner

- Using Corner note style
- with the rest being Default

- Block with title
- Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usenotestyle{Corner}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```

Sticky

- Using Sticky note style
- with the rest being Default

- Block with title
- Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usenotestyle{Sticky}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
**Default Block**

**Using Default note style**
with the rest being Default

**Block with title**

Content

**Block without title**

Note

**If you like this setting, use the following code:**

```latex
\documentclass{tikzposter}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using **VerticalShading** note style
with the rest being Default

**Block with title**

Content

**Block without title**

Note

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usenotestyle{VerticalShading}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Using Corner note style
with the rest being Default

Block with title
Content

Block without title
Note

If you like this setting, use the following code:

\documentclass{tikzposter}
\usenotestyle{Corner}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
Sticky Block

Using Sticky note style
with the rest being Default

Block with title

Content

Note

Block without title

If you like this setting, use the following code:

```latex
\documentclass{tikzposter}
\usenotestyle{Sticky}
\title{Title} \author{Author} \institute{Institute}
\begin{document}
\maketitle
\block{Block}{Content}
\end{document}
```
Customization of TikZposter: Your Own Look

You can completely change the appearance of your poster. Below we define a new color style to be used together with the predefined background (Default), title (Wave), blocks (Minimal) and notes (Default) styles.

```latex
\documentclass{tikzposter}
definecolor{mygray} {HTML} {CCCCCC}
definecolorstyle{myColorStyle} {
\colorlet{colorOne}{black}
\colorlet{colorTwo}{mygray}
\colorlet{colorThree}{mygray}
}
% Background Colors
\colorlet{backgroundcolor}{colorTwo!50}
\colorlet{framecolor}{colorTwo!50}
% Title Colors
\colorlet{titlebgcolor}{colorOne}
\colorlet{titlefgcolor}{white}
% Block Colors
\colorlet{blocktitlebgcolor}{colorTwo!50}
\colorlet{blocktitlefgcolor}{black}
\colorlet{blockbodybgcolor}{colorTwo!50}
\colorlet{blockbodyfgcolor}{black}
% Innerblock Colors
\colorlet{innerblocktitlebgcolor}{white}
\colorlet{innerblocktitlefgcolor}{black}
\colorlet{innerblockbodybgcolor}{white}
\colorlet{innerblockbodyfgcolor}{black}
% Note colors
\colorlet{notefgcolor}{black}
\colorlet{notebgcolor}{white}
\colorlet{notebgcolor}{white}
\begin{document}
\maketitle
\begin{columns}
\institute{Institute}
\author{Author}
\title{Title}
\usepackage[T1]{fontenc}
\renewcommand*{\familydefault}{\sfdefault}
\usepackage{avant}
\end{columns}
\end{document}
```
**My Custom Theme**

Fully customized

### The code of this poster

```latex
\documentclass{tikzposter}
\definemygray{mygray}{HTML}{CCCCCC}
\definemystyle{myColorStyle} {
  \colorlet{colorOne}{black}
  \colorlet{colorTwo}{mygray}
  \colorlet{colorThree}{mygray}
}{% Background Colors
  \colorlet{backgroundcolor}{colorTwo!50}
  \colorlet{framecolor}{colorTwo!50}
% Title Colors
  \colorlet{titlefgcolor}{white}
  \colorlet{titlebgcolor}{colorOne}
% Block Colors
  \colorlet{blocktitlebgcolor}{colorTwo!50}
  \colorlet{blocktitlefgcolor}{black}
  \colorlet{blockbodybgcolor}{colorTwo!50}
  \colorlet{blockbodyfgcolor}{black}
% Innerblock Colors
  \colorlet{innerblocktitlebgcolor}{white}
  \colorlet{innerblocktitlefgcolor}{black}
  \colorlet{innerblockbodybgcolor}{white}
  \colorlet{innerblockbodyfgcolor}{black}
% Note colors
  \colorlet{notefgcolor}{black}
  \colorlet{notebgcolor}{white}
  \colorlet{notefrcolor}{white}
}%
\usecolorstyle{myColorStyle}
\usetitlestyle{Wave}
\useblockstyle{Minimal}
\usepackage{avant}
\renewcommand*{\familydefault}{\sfdefault}
\usepackage[T1]{fontenc}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\begin{columns}
  \column{0.5}
  \block{Block 1}{
    \coloredbox{
      Content 1
    }
  }
  \column{0.5}
  \block{Block 2}{
    \coloredbox{
      Content 2
    }
  }
\end{columns}
\end{document}
```

### The code continued

```latex
\usepackage{avant}
\renewcommand*{\familydefault}{\sfdefault}
\usepackage[T1]{fontenc}
\title{Title}
\author{Author}
\institute{Institute}
\begin{document}
\maketitle
\begin{columns}
  \column{0.5}
  \block{Block 1}{
    \coloredbox{
      Content 1
    }
  }
  \column{0.5}
  \block{Block 2}{
    \coloredbox{
      Content 2
    }
  }
\end{columns}
\end{document}
```
